TWELFTH EDITION
NOVEMBER 2002

SOUTHEAST AIDS TRAINING
AND EDUCATION CENTER

DEDICATION

This twelfth edition of *Key Contacts* is dedicated to the individuals and organizations who provide HIV/AIDS services to adults and adolescents in Georgia's corrections facilities and in the communities to which inmates return. We are fortunate to have professionals in Georgia who view incarceration, probation and parole as opportunities to provide HIV diagnostic services and risk reduction counseling to all inmates, and to provide HIV-infected inmates with high-quality medical care. These professionals also strive to facilitate a smooth transition into community health care upon release.

We extend our thanks to Madeleine La Marre MSN, CFNP, CCHP, clinical services supervisor for the Georgia Department of Corrections. Madie was SEATEC's very first colleague in training for corrections providers. She has advocated for high-quality HIV medical services in state prisons for over 15 years, working hard to ensure adequate staffing, training, and other support to corrections health care providers. Thanks also to Joseph E. Paris MD, PhD, CCHP, medical director, Gerald L. Buttelwerth MSN, CFNP, clinical services auditor, and Jennifer Taussig MPH, public health coordinator, all in the Department of Corrections.

Michelle Staples-Horne MD, MPH, medical director for the Georgia Department of Juvenile Justice, advocates for adolescent services related to HIV prevention and care. Marcus Moseley MD, Medical Director, tackles the difficult job of screening and providing care to Fulton County Jail inmates, as do medical directors in many other Georgia jails.

At the Southeast AIDS Training and Education Center (SEATEC), a cadre of instructors brings clinical and classroom teaching on HIV, hepatitis, tuberculosis, and other infections to corrections-based providers nationwide. Our thanks to Jacqueline Zalumas PhD, RNC, FNP, director of the Corrections Technical Assistance and Training Project (CTAT), to instructors Johnetta Holcombe MPH and Linda Levinson BA, RN, to former instructor Vara Deloney RN, MPH, and to consultant instructor Dianne Weyer MSN, FNP. This corrections training project is in its ninth year of operation.

Thanks also to our federal colleagues, John Miles MPA, Hugh Potter PhD, CCHP, Anne Spaulding MD, and Karina Krane Rapposelli MPH, who staff the Corrections and Public Health Continuity of Care demonstration projects in seven states. This U. S. Centers for Disease Control and Prevention and Health Resources and Services Administration (CDC/HRSA) -funded project is now in its fourth year of operation. CTAT is a technical assistance and training provider for this initiative.

Thank you all for your heroic efforts in facing this huge and difficult aspect of the HIV epidemic.

Key Contacts is a publication of SEATEC, the Southeast AIDS Training and Education Center, a U.S. Public Health Service-funded regional AIDS Education and Training Center. Since 1988, SEATEC has provided low-cost, high-quality HIV training for health care providers in Alabama, Georgia, North Carolina, and South Carolina. The names of contributors to all *Key Contacts* editions appear on page 80.
